

WHY CHOOSE WOODS®

WOODS® EXCLUSIVE FEATURES GIVE YOU THE ADVANTAGE IN THE FIELD.

WOODS
EXCLUSIVE

CHANGE™ BLADE SYSTEM

Change cutter blades in five steps with a 3/4" wrench. No impact gun or torch required.

SMARTLIFT™ DRIVELINE ASSIST

No more wrestling with an 80lb PTO shaft. Woods® Exclusive SmartLift™ System does the heavy lifting for you by holding the weight of the driveline as you connect and disconnect to the tractor.

LEVEL LOCK™ TECHNOLOGY

Woods® Level Lock™ Technology on the BW15 series ensures a more level cut height across rugged terrain. (patent pending)

UNMATCHED GEARBOX PROTECTION

We're proud to stand behind and reinforce our commitment to quality by offering the Woods® Cut Above™ Warranty Program, which includes parts, labor, and seals for the full term of the warranty.

WHY CHOOSE WOODS®

WOODS® EXCLUSIVE FEATURES GIVE YOU THE ADVANTAGE IN THE FIELD.

WOODS
EXCLUSIVE

Woods® Cool Flow™ System, featured on all professional model gearboxes, provides superior lubrication by continuously moving oil inside the gearbox passages.

Uniquely designed gearbox seal has an inner lip to reduce and prevent oil leaks. Featured on all professional model gearboxes.

Z-SHAPED HIGH-STRENGTH STEEL BUMPER

The unique BrushBull™ bumper design is twice the thickness of competitive models and provides greater durability when backing over tough brush.

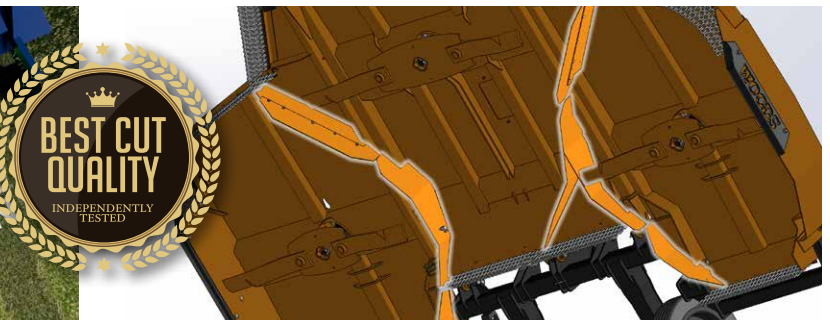

WOODS® SUCTION TECHNOLOGY

Featured on every woods finish mower. Enables our #1-rated, best-in-class cut quality.
